Professional Summary

Full-Stack Software Developer with 5+ years of experience building responsive, scalable web applications using modern JavaScript frameworks. Strong foundation in computer science with hands-on experience in React, Node.js, cloud deployment, and database design. Proven ability to deliver real-world solutions for clients, integrate APIs, and optimize performance. Currently pursuing a B.S. in Computer Science (2026).

Technical Skills

Languages: JavaScript, Python, Java, C++, SQL
Frontend: React, Vite, Tailwind CSS, HTML5, CSS3, Bootstrap
Backend: Node.js, Express.js, REST APIs, GraphQL
Databases: MongoDB, MySQL, SQL, Sequelize
Cloud & Tools: AWS (RDS), Render, Netlify, Git, GitHub, VS Code

---

Projects

Company Database — *GitHub:* Git Link | *Live Site:* Live Link

The Company Database Management System is a full-stack web application that visualizes and manages a company's organizational data. It connects a MySQL database (hosted on AWS RDS) to an Express/Node.js backend and a React frontend, all deployed on Render.

- Implemented server-side models and connected databases; hosted the database with AWS.
- Developed client-side components for dynamic data interaction.
- **Tools:** React, Vite, AWS, SQL, Node.js, Render, Tailwind CSS

PixelPioneer Pro Services — *GitHub:* Git Link | *Live Site:* Live Link

Developed and deployed a modern, responsive professional services website designed to convert visitors into leads.

- Built a **single-page React application** using **Vite and Tailwind CSS**, emphasizing performance, responsiveness, and clean UI design
- Implemented reusable components, responsive layouts, and mobile-first styling
- Optimized site structure and metadata for **SEO and fast load times**
- Deployed application to **Render**, managing build configuration and production environment
- Designed the site to be easily extendable for future integrations such as contact forms, automation, and analytics

Tools: React, Vite, Tailwind CSS, JavaScript, HTML5, CSS3, Render

Simple Cache Simulator (Java)

Designed and implemented a cache memory simulator to analyze cache performance under different architectures.

- Built a Java-based cache simulator supporting direct-mapped, set-associative (2-way / 4-way), and fully associative cache designs
- Implemented LRU replacement policy and configurable cache parameters
- Simulated memory access patterns and calculated cache hit/miss behavior and miss rates
- Analyzed performance trade-offs between cache associativity levels using test input files
- Validated results through controlled test cases and documented findings in a detailed README

Tech: Java, Data Structures, Cache Memory, LRU Replacement, Computer Architecture

AI-Nexus — *GitHub:* Git Link | *Live Site:* Live Link

This is an advanced conversational AI platform showcasing cutting-edge NLP capabilities in a clean, interactive, and visually engaging web interface. The project is designed as a showcase for AI-powered chatbots with a modern UI/UX and a focus on interactivity. Developed server-side models and database connections; crafted responsive front-end interfaces.

- **Tools:** OpenAI, Vite, React, Javascript, Node, Tailwindcss

Cosmic Records — *GitHub:* Git Link | *Live Site:* Live Link

Developed a full-stack e-commerce application for vinyl enthusiasts to search and purchase records.

- Implemented server-side models, typeDefs, and resolvers; integrated the database with Apollo.
- Developed client-side components for dynamic data interaction.

Tools: Express.js, React, Stripe, MongoDB, Node.js, GraphQL, Tailwind UI

Experience

Freelance Software Developer

Freelance | Self-Employed — Houston, TX 2021 – Present

Design, develop, and deploy custom web and automation solutions for small businesses and individual clients. Focus on delivering scalable, user-friendly applications leveraging modern full-stack technologies and cloud infrastructure.

- Develop and maintain user-facing web applications using React, Vite, and Tailwind CSS with a focus on usability and responsiveness.
- Implement backend services with Node and Express, connecting applications to SQL or NoSQL databases.
- Build reusable components and modular code to support scalable feature development
- Integrate third-party APIs and payment services where required.
- Deploy applications to cloud platforms and manage updates, fixes, and feature enhancements post-launch.
- Optimize application performance and accessibility across desktop and mobile devices.

SEO Webmaster / Web Developer

AllN1 Pest Control Management — Houston, TX 2025 – Present

- Built and maintained company website with SEO-optimized structure
- Improved local search rankings through on-page SEO, metadata, and performance optimization
- Managed content updates, analytics, and site performance

Instructor's Assistant

Rice University, 2U Inc. – Houston, TX *2021 – 2023*

Supported instruction for a six-month intensive full-stack web development certificate program.

- Guided students in HTML5, CSS3, JavaScript, Node.js, SQL, NoSQL, Git, and React.js.

- Conducted office hours for personalized student support, improving course completion rates.
- Mentored aspiring developers preparing for entry into the technology workforce.

Delivery Driver

KM Logistics – Houston, TX *2020--Present*

Efficiently transport packages while ensuring timely delivery and customer satisfaction.

- Utilized critical thinking to optimize routes and resolve client communication challenges.
- Trained new hires, contributing to team development and operational success.
- Recognized for top delivery volume and efficiency.

Delivery Driver

JR P&D Contracting – Houston, TX *2019 – 2020*

Delivered goods safely and on time while maintaining high service standards.

- Adhered to safety protocols during loading/unloading and navigation.
- Coordinated with dispatch to ensure accurate and timely deliveries.
- Commended for consistent on-time performance.

Education

Bachelor's of Science in Computer Science - Lamar University; **Current**

Full Stack Web Development Certificate - Rice University; Houston, TX | **2021**

Associate of Arts in Education - Lone Star College; Houston, TX
