Lamar University | Bachelor of Science, Computer Science (GPA: 3.9) — Beaumont, TX Jun 2025 - May 2027

Rice University | Certificate, Full Stack Web Development — Houston, TX May 2021 - Oct 2021

Lone Star College | Associate of Arts, Education — Houston, TX Aug 2015 - May 2017

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, Java, C++, SQL
- **Frontend:** React, Vite, Tailwind CSS, HTML5, CSS3, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs, GraphQL
- **Databases:** MySQL, MongoDB
- **Cloud & Tools:** AWS (RDS), Sequelize, Git, GitHub, VS Code

CERTIFICATIONS

- Google IT Support Professional Certificate: In Progress
- AWS Cloud Practitioner (CLF-C02): In Progress

EXPERIENCE

Freelance — **2021 - Present**
Freelance Software Developer — *Houston, TX*

- Developed and deployed responsive full-stack web applications with React, Vite, and Tailwind CSS, delivering a consistent user experience across devices
- Built backend services using Node.js and Express, integrating both SQL and NoSQL databases, which streamlined data handling and reduced query latency
- Deployed applications to cloud platforms (e.g., AWS) and managed updates, bug fixes, and feature enhancements, maintaining high availability and delivering new functionality promptly

AllN1 Pest Control Management — **2025 - Present**
SEO Webmaster / Web Developer — *Houston, TX*

- Developed and maintained the company website using Node.js, Tailwind CSS, and GraphQL, version-controlled with Git, delivering an SEO-optimized site that attracted more organic visitors
- Improved local search visibility through metadata optimization and performance tuning

Rice University (2U Inc.) — **2021 - 2023**
Instructor's Assistant — *Houston, TX*

- Assisted students with JavaScript, React, Node.js, SQL, Git, and debugging concepts, enabling them to complete assignments successfully and increasing overall class confidence in coding tasks
- Conducted weekly office hours, providing one-on-one technical support on JavaScript, Node.js, and Git via screen-sharing and code reviews, which reduced repeat help requests and improved student self-sufficiency

KM Logistics / JR P&D Contracting — **2019 - 2026**
Delivery Driver — *Houston, TX*

- Maintained on-time delivery performance in high-volume environments by using GPS navigation, real-time tracking tools built with JavaScript and Node.js, and coordinating schedules through Java-based logistics software

PROJECTS

PixelPioneer Pro Services | github.com/bboyd146/pixel-pioneer

- Developed a responsive single-page application with reusable components
- Optimized site structure for performance and SEO
- Tools: React, Vite, Tailwind CSS, JavaScript, Render

Company Database | http://github.com/bboyd146/company-employee-data

- Built full-stack application with database-backed CRUD functionality
- Implemented server-side models and deployed database using AWS RDS
- Tools: React, Vite, Node.js, Express, SQL, AWS, Render

Lead Loom | github.com/bboyd146/lead-loom

- Designed and deployed an automated lead capture/follow-up system that triggers instant responses.
- Integrated workflow automation to send real-time email notifications and follow-ups, solving manual handling.
- Tools: React, Zapier, Google Forms, Render
